

# EXTRAVAGANT EXISTENCE

Keeping in mind today's urban lifestyle, Tropicana Garden, Dianthus, residential units designed and decorated by Young Concept Design bring together luxury and comfort. From the master bedroom, living room, to the kitchen, every nook and corner of the units have been aesthetically done up for the ultimate grandeur.

## THIS PROJECT

NAME OF DESIGNERS | ESTHER AU YONG & TEAM  
DESIGNATION | CREATIVE DIRECTOR & INTERIOR DESIGNER  
PROJECT TYPE | CONDOMINIUM  
PROJECT CATEGORY | RESIDENTIAL  
PROJECT LOCATION | TROPICANA GARDENS, DIANTHUS  
SITE AREA | 1,400 SQ FT

Urban living meets mindful decor and a comforting aesthetic in the residential units at Tropicana Gardens, Dianthus. Other than their prime location, these residential condominium units are set to dazzle you with all they have to offer. The ergonomic floor plan with a warm colour scheme leaves no stone unturned when it comes to your comfort and quality of living. Paired with all contemporary amenities, Tropicana Gardens, Dianthus residential units have upped the standards of modern living.

The project rightfully showcases its most vital asset - the master bedroom! Other than having a spacious layout, the master bedroom offers ample natural lighting and ventilation. And to add to the slightly modern touch, the master bedroom comes with wooden design flooring, and walls lined with variegated marble features. The linen curtains, off-white colour scheme, and luxurious vinyl bolsters greatly complement the general aesthetics of the unit without robbing it of its unique decor. The master bedroom also comes attached with a spacious closet defining the ultimate convenience.

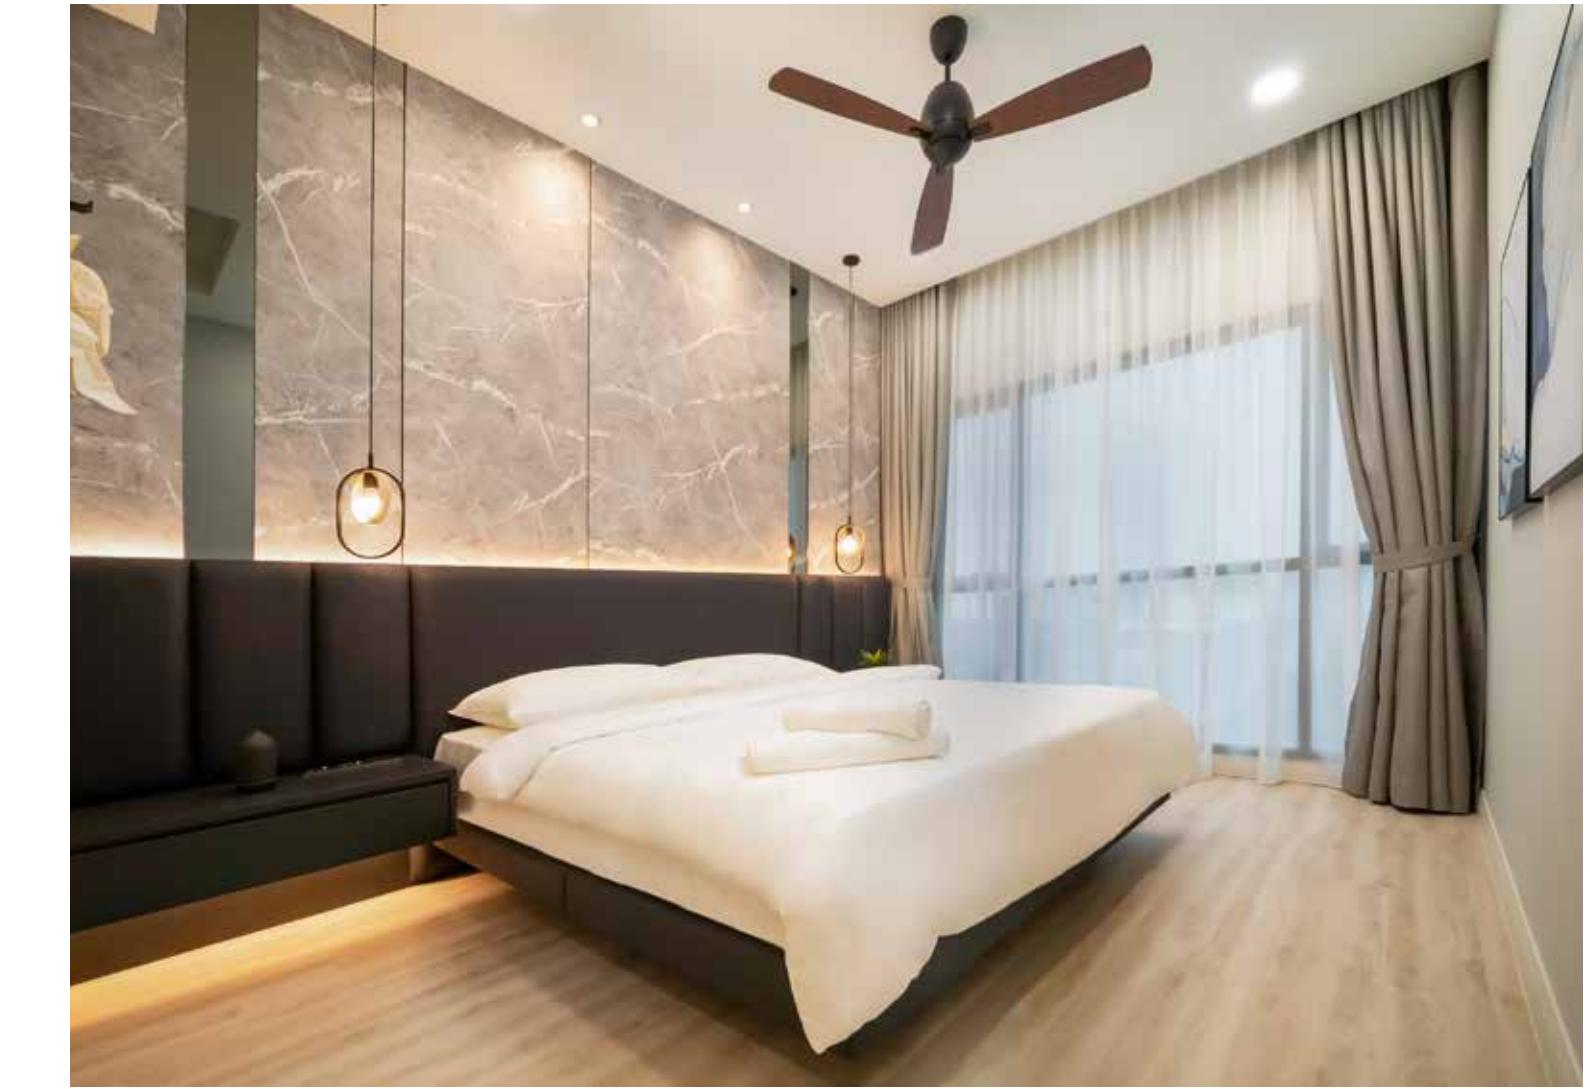

The other aspect of the project that will win you over is the dining cum living room, which not only revitalizes the essence of mindful living but is also accommodative of all tastes and preferences. The timeless colour scheme finds its way into the living room as well, accompanied by ambient lighting, wooden design panels, and gorgeous furnishing and decor. The living room also features amazing glasswork and a comfortable sofa that sets the mood for all occasions - whether you're unwinding after a long day or enjoying a home party with your friends and family.

The kitchen space as the *pièce de résistance* is complete with a magnificent island.

The entire project is geared towards a zen attitude and can be uniquely customized with indoor plants and greenery, decorative lighting and artistic items. ☺
