 PROJECT CATEGORY | RESIDENTIAL  
 PROJECT TYPE | HIGH-RISE-CONDOMINIUM  
 SITE AREA | 1,500 SQ FT  
 PROJECT LOCATION | WALTZ RESIDENCES

NAME OF DESIGNERS | MEI THENG & TEAM  
 DESIGNATION | DIRECTOR & INTERIOR DESIGNERS

# ILLUSTRIOS ETHOS

In the realm of interior design, a captivating movement is emerging, embracing the infusion of cultural elements and themes to forge bespoke and deeply personal environments. A design style that has surged in popularity is Oriental Fusion, an enchanting blend of Chinese cultural essence and contemporary aesthetics. This fusion style not only pays homage to the opulence of Chinese heritage but also weaves an alluring and immersive atmosphere.

**A**t the core of Oriental Fusion design lies the dining area, where the palette draws inspiration from the oriental ambience, conjuring a sense of allure. The harmonious juxtaposition of Calacatta marble and rich cherry wood engenders a visually striking contrast. With a touch of sophistication, meticulously chosen pendant lights from the 1940s augment the overall atmosphere, exuding chic allure. By employing a bespoke panel to exhibit the intricacy of Chinese culture, the decorative masterpiece seamlessly guides the eye into the adjoining kitchen, evoking intrigue and unveiling delightful discoveries. The kitchen cabinets, with their refined cement appearance, offer an innovative and contemporary storage solution. This harmonious fusion of modern practicality and oriental aesthetics begets an enthralling and unparalleled experience.

Concealed behind elegantly panelled walls, the study and entertainment area in Oriental Fusion design is meticulously crafted with utmost care. Immaculately integrated cabinetry effortlessly accommodates the selected furnishings, while verdant shelves serve as captivating accents, honouring the oriental theme of sustainability. The television cabinet, adorned with exquisite oriental carvings and fittings, elevates the entire ambiance, bestowing an air of sophistication.

Stepping into the walk-in wardrobe, the Oriental Fusion design continues to astonish and delight. The marriage of maple wood and vibrant lime green cabinets exudes a refreshing and vivacious blend, while gracefully arched doors reveal a dedicated chamber adorned with limited edition plush toys. This distinctive addition imbues the design with a playful charm, inviting personalization and individual expression.

Both bathrooms in the Oriental Fusion design transform into sanctuaries of opulence and serenity. Valencia wood grain laminates artfully contrast the pristine Calacatta white marble and ivory granite surfaces. Oriental-inspired brass-porcelain finishes impart an exquisite touch of refinement, infusing the space with elegance.

Embracing the uniqueness of its inhabitant, one of the rooms draws inspiration from Oriental Barbie, where shades of rose and flamingo pink take centre stage. From the one-of-a-kind armchair to the oriental-themed wall art, every element in this room contributes to its distinct personality. The wallpaper and draperies further enhance the ambiance, conjuring a tranquil and inviting sanctuary.

Oriental Fusion design is a jubilant celebration of Chinese culture and aesthetics, fashioning an enthralling and immersive experience. It seamlessly amalgamates beauty, functionality, and cultural reverence, giving rise to living spaces that are truly unparalleled and inspiring. ☺
